Company Profile

VIVEGAN MANUFACTURING ENGINEERING

General Information:

Company Name:	VIVEGAN MANUFACTURING ENGINEERING
	(An Innovative Engineering &Strategic Manufacturing)
Office & Factory:	No38 Padavattamman Industrial Estate,
	Ambattur,
	Chennai-600098
Telephone:	8344070649
Email Address :	viveganme@gmail.com
Contacts :	Mr,Manivasagam BE
GST Number:	33FWHPM3864A1ZN
PAN Number:	FWHPM3864A
UDYAM Registration:	UDYAM-TN-02-0339524
Manpower:	Adequate team of Production Engineers, Planning Engineers,
	purchase, Skilled Operators, QA Engineers, Customer Support Engineers

Manufacturing Facilities

Vertical Machining :

Make AMS 850V	Bed Size 1000 x 510 mm
Travel	X-axis 800 mm · Y-axis 500 mm · Z-axis 500 mm
4th Axis Rotary Table	200 mm diameter Ucam
SPINDLE SPEED	10000 RPM
CONTROLER	FANUC Series Oi-MF plus

Vertical Machining:

Make MACPOWER	Bed Size 1000 x 510 mm
Travel	X-axis 800 mm · Y-axis 500 mm · Z-axis 500 mm
SPINDLE SPEED	8000 RPM
CONTROLER	Mitsubishi

Vertical Machining :

Make JYOTHI RDX-20	Bed Size 1000 x 510 mm
Travel	X-axis 800 mm · Y-axis 500 mm · Z-axis 500 mm
SPINDLE SPEED	8000 RPM
CONTROLER	FANUC Series Oi-MF plus

Vertical Machining :

Make AMS 740V	Bed Size 900 x 400 mm
Travel	X-axis 750 mm · Y-axis 470 mm · Z-axis 400 mm
4th Axis Rotary Table	200 mm diameter Ucam
SPINDLE SPEED	10000 RPM
CONTROLER	FANUC Series Oi-MF plus

Inspection Equipments:

Surface Plate:	Grade I, 500 X 500 mm, Granite, GMT Make
Height Gauge:	300 mm Long ,(Digital Height Gauge Mitutoyo)
Dials:	Dial Comparator 1 m Mahr make – 1 Nos
	Lever type 2m, Mitutoyo make – 2 Nos.
	Lever type 10m, Mitutoyo make – 1 nos
	Plunger type, 10m, Mahr make – 1 no, Dial Stands – 1 nos
Micrometers:	0-25 to 50-75 mm 1 m Mitutoyo make Total 1 Nos
Vernier Calipers:	200 mm, Digital Vernier Mitutoyo make – 2 Nos
	300 mm, Vernier Mitutoyo make – 1 No.
	150mm, Digital Vernier Mitutoyo make – 2 Nos

Welcome To VIVEGAN MANUFACTURING ENGINEERING

VIVEGAN MANUFACTURING ENGINEERING have been established in 2021. It is born to provide a solution in a precision manufacturing with an innovative engineering at the world class cutting edge technology.

VIVEGAN MANUFACTURING ENGINEERING specializes in total project management providing support services at all stages from product development engineering services, design for manufacturability, prototyping, to production.

VIVEGAN MANUFACTURING ENGINEERING PMG has the vast experience in manufacturing the various materials like Aluminum, Stainless Steel, Alloy Steel, Inconel, Titanium, etc. for the different domains including Aerospace, Automotive, Oil/Gas, Medical, Industrial. VIVEGAN MANUFACTURING ENGINEERING PMG specializes in manufacturing the tight tolerance parts up to 0.0002” in the production mode

Quality

- Followed Reduce NG
- Control work delay
- Improve employee skill
- Improve the Work Environment
- Implement the Competitive Cost Strategy
- Develop the Lean Manufacturing Techniques
- Enhanced Manufacturing Efficiency
- On-Time Delivery with Zero Defects
- Develop the skills of the Smart tech engineering Team thru training
- Contribute to the clean environment

Our Services

CNC MACHINING SERVICE

JIG & FIXTURES

With the rapid advancement in manufacturing technology, consumerism has increased over the years. Therefore, to meet the higher demands, manufacturers have come up with innovative methods of producing high-quality products at a much faster rate.

COMPONENT MANUFACTURING

Component engineering can also refer to the manufacturer of selected equipment used in theatrical motion picture projection. This equipment falls into two categories: units that automatically control the presentation and those that comprise part of the sound system. Auto component manufacturing, aerospace component manufacturing

TOOL & DIE

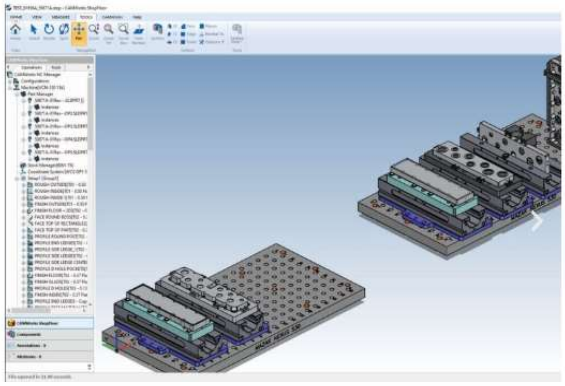
Tool and die makers are precision metal workers who craft tools and metal forms for stamping and forging operations. They analyze design specifications, cut and shape metal, assemble parts, and test completed products for use in manufacturing facilities

MANUFACTURING SERVICE

JIG & FIXTURES, COMPONENTS, TOOL & DIE MANUFACTURING

- Precision Conventional Machining
- Precision Jigs & Fixtures Manufacturing
- Press Tools & Mold Manufacturing
- Custom Receiver Gage Manufacturing
- Precision CNC Machining
- Job Orders
- Advanced Production Management

ENGINEERING SERVICE



ENGINEERING SERVICE

- Conceptual Design for Manufacturability
- 3D Process Design & Drafting
- Jigs & Fixture Design
- Press Tool & Mold Design
- Turn Key Solutions for CNC Multi-Axis Machining
- CAM Programming & Advanced Simulation
- Legacy Data Conversion
- Advanced Production Documentation
- Manufacturing Data Management
- Advanced Tooling Design
- Custom Receiver Gage Design
- Reverse Engineering
- Re-Engineering
- Inspection Data Management

Vision, Mission & Teamwork

About Us

Vision

Our vision is to become a leading world class, vertically integrated Components/Assemblies manufacturing company in India to support global requirements

Mission

Our mission is to maintain and grow the supply of quality products and "Build to print" components/assemblies in the fields of Precision CNC manufacturing, Jigs/Fixtures, Mold/Die, Metal stamping and Injection molding etc. to the Aerospace and equipment makers for Semiconductor, Oil/Gas, Medical and other industries

TeamWork

At Smart tech engineering., we know success and transformational change is only achieved through working together.
